Tong WU

U.S. Permanent Resident

Department of Chemistry, Temple University
203 Beury Hall, 1901 N. 13th Street, Philadelphia, PA 19122, USA
@ tong.wu@temple.edu

Education:

2017～2022 Temple University – Advisor: Hai-Lung Dai
Ph.D. in Analytical Chemistry (3.82/4.00)
Dissertation: Influence of environmental factors on molecular transport through bacterial membranes

2013～2017 Jilin University
Bachelor of Chemistry with Outstanding Graduates Honors in Chemistry

Experience:

2022-Present
Adjunct Research Assistant Professor

Department of Chemistry, Temple University

- Composed journal papers and grant applications
- Developed advanced analytical methods and techniques to study antibiotic metabolism

2017-2022
Research Assistant

Department of Chemistry, Temple University
Advisor: Dr. Hai-Lung Dai

- Quantitatively determine the lipid bilayer phase separation and permeability using second harmonic generation spectroscopy.
- Developed mathematical models for drug metabolism, aiding in data analysis for technical applications
- Monitor antimicrobial molecule adsorption and transport through bacteria double cell membrane changed by indole and gain a mechanistic understanding of the effect of indole on antibiotic efficacy
- Drafted protocol for and mentored one graduate and three undergraduates on bacteria or human cell culture and fluorescence measurements; Provided technical support to other labs using our platforms

2015-2017
Research Assistant

State Key Laboratory of Supramolecular Structure and Materials, Institute of Theoretical Chemistry, Jilin University
Research Advisor: Dr. Weiqing Xu

- Focused on rapid detection and analysis using surface-enhanced Raman Spectroscopy and microfluidic technologies for various applications
- Expertise in designing, fabricating, and testing microfluidic chips for efficient trace concentration detection
- Utilized statistical methods and software tools to analyze and interpret experimental data to advance microfluidic based detection

Publications:

1. **Wu, T.,** Wilhelm, M. J., Ma, J., Li, Y., Wu, Y., & Dai, H. L. Influence of Phase Transitions on Diffusive Molecular Transport Across Biological Membranes. *Angewandte Chemie - International Edition 61, (2022). (IF:16.82)*
2. **Wu, T.,** Wilhelm, M. J., Li, Y., Ma, J. & Dai, H.-L. Indole Facilitates Antimicrobial Uptake in Bacteria. *ACS Infect Disease 8, 1124–1133 (2022).* [cover page feature article] *(IF: 5.084)*

Conference & Seminar Experiences:

2022	**ACS Spring** (Division of Colloid and Surface Chemistry) Talk title: Indole facilitates antimicrobial transport across the bacterial peroplasm and cytoplasmic membrane
2021	**Merck West Point Outreach** Event Seminar title: Molecular adsorption and transport at living cell membranes by Second Harmonic Scattering.
2021	**Original Research Proposal** RNA-guided Cas9 Dynamics – A Study by Time-Resolved Second Harmonic Generation
2020	Attend **19th American Chemical Society's Younger Chemists Committee (YCC)** Philadelphia

	Poster: Extracellular Signaling Molecule Indole Increases Permeability of Bacterial Membranes (**Wu, T.,** Wilhelm, M.J., Ma, J., Li, Y., and Dai, H.-L.)
2019	Department of Chemistry Temple University
	Seminar: Identification of Transmembrane Asymmetry of Plasma Membrane Cholesterol by novel biosensors
2016	Attend **1st National Conference on Raman-based Biomedical Application** at Wuhan University, in China.
	Poster: SERS determination of protease through a particle-on-a-film configuration constructed by electrostatic assembly in enzymatic hydrolysis reaction. (Yang, L., **Wu, T.,** Fu, C., Chen, G., Xu, S., and Xu, W.)

Teaching & Supervising Experiences:

2021 Summer	General Chemistry II Recitation (1032)
Instructor	General Chemistry II Laboratory (1034)
2020	**Team advisor** in senior design project (Temple' 20) Design Title: Auto Mechanic Extruder for lipid nano particle preparation • Drafted proposal and **granted $1500**. • Invented and constructed a faster, stable, electronically controlled Extruder for liposome preparation.
2018	General Chemistry I Laboratory (1033)
Instructor	Temple University, Department of chemistry
2017	Introduction to chemical research techniques (3105)
Instructor	Temple University, Department of chemistry

Professional skills:

Scientific techniques	Microfluidics, Dynamic light scattering (DLS), Differential Scanning Calorimetry (DSC), Optical/Fluorescence/Nonlinear Optical Microscopy, Flow cytometry, UV-Vis, HPLC, Mass Spectroscopy (MS), Bacteria/Human cell culture, Nano-lipid particle formation, Raman Spectroscopy
Computer system	Proficient in Python, Latex, Microsoft Package, Wolfram Mathematica, WaveMatrics Igor, ImageJ, ChemDraw; Experience with MATLAB, Origin, C, CUDA, Google Colab
Languages	Mandarin/Chinese; English

Internship Experiences:

2016 Summer	**Surfactant Research Laboratory in Fushun Petrochemical Branch Institute** Classified and analyzed surfactant materials

Extracurricular Activities:

2013-2016 Associate President	**Student Union of Department of Chemistry** Assists the Chair in coordinating advocacy efforts on behalf of student interests. Organized festivals and events to enrich student's campus lives.
2014-2015 Psychological Counselor	**Peer Mental Health Association, College of Chemistry, Jilin University** Organized various seminars on mental health and stress management for freshman.
2014 Volunteer teacher	**Supporting Education in Longshan County, Hunan Province** Arranged emergency preparedness activities to respond to disasters. Taught nature science class.
2013-2015 Treasurer	**Tedx in Jilin University** Responsible for seeking corporate sponsorship Handles the society's finances

Awards & Honors:

2022	Dissertation Grant Fellowship, $11,000 from Temple Dept. of Chemistry
2021	2nd Place in Fall 2020 Top Senior Design Team Competition, Temple College of Engineering
2020	Best Poster, ACS Philadelphia Section 2020 Expo & Younger Chemists Committee Annual Meeting
2017	Outstanding Graduates of Jilin University
2017	Individual Scholarship of Jilin University
2016	Excellent Psychological Counselor of Jilin University
2016	The First Prize Scholarship of Jilin University
2015	Advanced Individual in College of Chemistry of Jilin University
2015	The First Prize Scholarship of Jilin University
2014	Excellent Student Cadre Scholarship of Jilin University
2014	The Second Prize Scholarship of Jilin University
